

# Leadership Fumigation Inc. Release of Liability Form

## PLANT

During the fumigation process, it is necessary to place equipment around the foundation of the entire structure. Although the utmost care will be exercised, there will/may be damages to the living plants, trees, landscape at/adjacent to the subject property.

## ROOF

During the fumigation process, it is necessary to walk upon the roof surface of the structure. Although the utmost care will be exercised, damage to the roof shingles, tile, metal, awnings, or other roof covering, vent caps will/may occur.

## FISH TANKS

It is our recommendation that the Homeowner/Occupant take out any living organism in an aquarium. Should you decide to leave such items inside, Leadership Fumigation will not be responsible for replacing such items.

## **LEADERSHIP FUMIGATION, INC.**

Will not assume liability or responsibility for such damage for any of the above that will/may occur during the fumigation process on property located at:
